

GIRISH PAWAR

OBJECTIVE

A proactive team player with strong multitasking abilities, always eager to take on new challenges. Passionate about problem-solving, learning new skills, and delivering impactful results.

SKILLS

- Python
- HTML
- Java Script
- CSS
- Tailwind CSS
- Fast API
- NumPy
- Pandas
- Matplotlib
- Seaborn
- Requests
- Skit-learn
- TensorFlow
- GitHub
- Jupiter Notebook
- VS Code

Work Experience

Student Researcher

05/2022

- Co-authored and published a research paper in the International Research Journal of Modernization in Engineering, Technology and Science (IRJMETS), Volume 04, Issue 05, May 2022.
- Collaborated with a team of 5 to design and develop a healthcare-related application using Java, XML, Android Studio, Firebase DB.

Software Engineer Intern – Innovation Hub Services Private Limited

08/2021 – 09/2022

- Internship in Web Design & Development.

Education

Bachelor of Computer Science, Sandip University, Nashik

(Expected 2025)

Diploma in Computer Technology, Sandip Polytechnic, Nashik

(2019 – 2022)

Project:

PriceWheel - A Used Car Price Prediction AIML Model

Developed and deployed a web-based platform using Python (FastAPI), MySQL, HTML, and CSS. The platform allows users to buy showroom and used cars, as well as sell their own vehicles. Integrated a machine learning model trained on historical data to predict the estimated price of used cars, enhancing user decision-making and platform value. [try this](#)

Medicure - A online Medication System

Created an Android app using Java, XML, and Firebase that connects users with local medical stores and doctors. The app features a dashboard for store owners to manage medicines, while users can upload prescriptions, book doctor appointments, and track medicine availability in real time.
